

	MON 7 NOV	TUE 8 NOV	WED 9 NOV Finance	THU 10 NOV Science & Youth	FRI 11 NOV Decarbonization	SAT 12 NOV Adaptation & Agriculture
9:00		WGIII Making sense of the IPCC Mitigation Scenarios	WCRP (WMO) Climate Information for Decision Making	09:00 - 10:15: WGII: Event: Adapting to climate change: Humanity's progress, limits and needs - A reflection of the latest IPCC key	09:00 - 10:15: WGIII Getting to net zero in energy intensive industries	MERI - GLOBAL METHANE HUB Event: Science to underpin action on agricultural methane
10:00		MERI Event: Blue Economy: how to tackle the blind spot in the economy and industry	MERI Event: Blue-Green industry for sustainability	10:30 - 11:30: MERI Event: Marine Protected Areas: challenges and monitoring	10:45 - 12:00: WGII Gender, climate justice and gender - transformative adaptation pathways	MERI - IPCC - CSM - U NICE Land and Nature Based Solutions
11:00		MERI Event: Paradigm shift and Climate Change	WMO Climate Science Information for Action Initiative	11:45 - 13:15: JOINT CONFERENCE "Marine Protected Areas: Promoting Science for Biodiversity and Mitigation"	12:15 - 13:15: WMO Global Climate Observing System (GCOS) 2022 Implementation Plan	TFI: Methodology work during AR6 cycle and towards AR7 cycle
12:00		MERI-Univ NICE-Monaco Event Ecosystem services: the future of the global economy	MERI Event: Green finance for sustainability	13:30 - 14:45: WGIII Delivering a sustainable future: deliberations of feasibility and policy	13:30 - 14:45: MERI Whales documentary: The Blue BOAT Initiative	WGIII Estimating GHG emissions
13:00		MERI - GLOBAL METHANE HUB Event: Linking Policy and Science through Satellites	WGIII Climate Resilient Development: How to make shifts towards a sustainable future for all	15:15 - 16:30: WMO Be ready for disasters - Empowering the future generation with practical knowledge in Disaster Risk Reduction (DRR)	15:15 - 16:30: WMO Greenhouse Gas Monitoring Infrastructure: emerging tool to back mitigation commitments	WMO The pathway to climate resilient food systems : lessons learned from climate services projects across four continents
14:00		WGIII Mitigating climate change through demand side responses	WGIII Financing the transition (adaptation and mitigation)	17:00 - 18:15: WMO Advancing Attribution Science	17:00 - 18:15: MERI - IPCC-CSM-U NICE Event: Comprehensive conservation: challenges and urgencies	WGII Healthy Planet Healthy People: What does adaptation mean for ecosystems and why does it matter to people?
15:00		WGI Overshoot - what does it mean to exceed 1.5C		18:30 - 20:00: MERI Event : Promoting environmental education as a tool for climate action.	18:45 - 20:00: MERI - IPCC - CSM - U NICE Event: Latin America and the Caribbean at the crossroads of climate change and sustainable development	
16:00				MERI From words to action: the role of young people in climate action		
17:00						
18:00	OPENING Joint event					
19:00						
20:00						
21:00						

	MON 14 NOV Water & Gender	TUE 15 NOV Energy & ACE	WED 16 NOV Biodiversity	THU 17 NOV Solution	FRI 18 NOV	
9:00	MERI Event: Sustainable water and marine resources: the challenge of climate and biodiversity crisis	WGII Transforming human behavior to enable ocean-focused climate action, biodiversity protection and sustainable development	WMO The loss of Antarctica and Greenland ice sheets in a warming climate - bridging between science and action	WMO Launch of State of the Climate in South-West Pacific 2021	9:30 - 11:00: MERI - CSM - U NICE Risk Management Panel	
10:00						
11:00	WMO Launch of State of the Climate in Asia 2021	11:30 - 12:30: WMO Pathways to Climate and Disaster Resilient Energy Transition	MERI - GLOBAL METHANE HUB Waste Methane Assessment Platform: Waste (MAP), monitoring, information and data to promote collaboration and implementation	MERI - GLOBAL METHANE HUB Waste Diversion and Segregation, a huge opportunity for methane mitigation, and a challenge for ambitious public policy and subnational implementation		
12:00						
13:00	WMO: Co-development of tailored climate services for multiple socio-economic sectors and stakeholders in Sub-Saharan Africa	MERI - GLOBAL METHANE HUB Accelerating Climate Philanthropy: Partnerships in Action	MERI Event AFRICA	WMO - IPCC: Launch of WASP Science for Adaptation Policy		
14:00	WMO The Last Mile: Flood and Drought Awareness, Warning and Response Capabilities	WMO: 2022 "State of Climate Services: Energy"	WGII Working with nature for people and the planet	WMO Strengthening Traditional Knowledge of Endangered Agricultural Systems	IPCC	
15:00						
16:00	TFI: release of the new version of the IPCC Inventory Software for Greenhouse gas inventories	MERI-IPCC-CSM-U NICE Event: Indigenous knowledge: back to the roots to build resilience	WMO Towards assessing and predicting the impacts of climate change on our water resources: WMO Hydrological Status and Outlook Services	WMO Classroom on the fundamentals of Early Warning Systems (EWS)	MCCCRH - WMO - IPCC Best Practice Communication of Climate Science and Impacts	
17:00						
18:00	WGII Small Islands: Staying Afloat and Alive@1.5	WGIII Managing a Just Transition	WGI Near term preparedness (WCRP contribution)	WGIII Carbon Dioxide Removal (CDR) in the IPCC WG III Report		
19:00						
20:00
